

## **Installing Fonts to Torchmate CAD**

Torchmate CAD is able to use a True Type font to create text without the use of the module. When installing the Torchmate CAD software the installer will search for a on the PC's hard drive. True Type fonts can be downloaded and installed after the Torchmate CAD software is on the PC.	Torchmate CAD is able to use a True Type font to create text without the use of the Protext module. When installing the Torchmate CAD software the installer will search for any fonts on the PC's hard drive. True Type fonts can be downloaded and installed after the Torchmate CAD software is on the PC.				
<b>Step 1:</b> Find the desired font from the internet and download the font to the PC. Keep in r there are a lot of freeware sites that could harm the PC. Make sure the site is trust searching reviews. Lincoln Electric Cutting Systems does not have a recommended because of its position of freeware or shareware websites.	Find the desired font from the internet and download the font to the PC. Keep in mind there are a lot of freeware sites that could harm the PC. Make sure the site is trusted by searching reviews. Lincoln Electric Cutting Systems does not have a recommended website because of its position of freeware or shareware websites.				
Find the recently downloaded font (most internet browsers save to the PC's Downloads folder) and make sure it is a True Type font (.ttf). If the font is not a .ttf then it cannot be installed to Torchmate CAD until the Protext module is purchased.	New folder				
Step 3: Using the mouse, right click on the font file and left click on the option that says Install. This will install the font is being installed will appear with a progress bar. When the font is installed the window will disappear on its own.	• • • • • • • • • • • • • • • • • • •
